As an Ontario Active director my objective is "the sustainability of Harness Racing in Ontario as well as all of Canada".

With the demolition of racing in Ontario we need to be very proactive and work hard at rebuilding this industry. I feel that Standardbred Canada needs a director that is interested in the "entire" Province.

I will work hard for the entire province (East, West, North, South) and the entire county to support a sport/business that is so important and vital to all.

Harness racing is a sport to many but a livelihood to my friends and piers. We need to push onward and upward.
